

R.M. of Mountain View No. 318
Policy for
Towing on the Municipal Right of Way

1. That all units being towed off of location or on a municipal roadway must obtain a Tow Permit prior to any movement.
2. The permit is to be issued to the vehicle being towed, and the tow permit fee will be \$25.
3. That in addition to the permit fee, the R.M. will charge a post inspection fee of \$250.
4. If it is determined that the unit requiring the tow does not pose a safety hazard and the tow will create road damage, the unit may be required to remain put until such time as it is dry enough to proceed without causing road damage.
5. The same permits and charges are required regardless if the tow is allowed to proceed immediately or has been ordered to wait.
6. Charges for road damage will be invoiced after road repair has been completed.
